

A close-up photograph of a red car's body panel. A black, textured plastic trim piece is mounted on the surface. On this trim, there is a silver-colored emblem. The emblem consists of a stylized Japanese character '無限' (Mugen) on the left, followed by the word 'MUGEN' in a bold, italicized, sans-serif font on the right. The car's body is a vibrant red color, and the lighting creates a slight shadow on the trim.

MUGEN is an engine tuner and parts manufacturer closely associated with the Honda Motor Company. MUGEN, meaning "Without Limit" was formed in 1973 by Hirotoshi Honda, the son of Honda Motor Company founder Soichiro Honda. MUGEN performs as an engine supplier for NSX-GT teams competing in the GT500 class of the Japan Super GT Championship racing series. MUGEN is also involved in other forms of international sports car racing: 24 Hours of Le Mans, ALMS (American Le Mans Series), JTCC (Japan Touring Car Championship) and WRC (World Rally Championship).

Twin Air Valve

Ability to use one valve for tire gauge and the other for filling with air.

MUGEN XJ 16" Alloy Wheels, the "XJ" alloy wheel is engineered to be lightweight while still maintaining high rigidity. The mesh design helps to dissipate heat efficiently. Twin Air Valve system allows for separate "In" and "Out" valve system. Hubcentric fitting, a Honda exclusive, improves the fit between the wheel and hub to achieve the highest driving performance.

MUGEN Room Mirror Cover is color-matched to the exterior of the vehicle with the MUGEN logo.

MUGEN Sports Mats are made with durable nylon fabric. They feature six stripes, red color for the driver's side mat representing "Dou" (move) and grey color for the rest of the mats representing "Sei" (calm) with red piping around the edges of all the mats. Back side is covered with special nibs that prevent the mats from sliding in the vehicle. MUGEN logo embroidery and MUGEN labels represents it's sport-oriented design.

MUGEN Quick Shifter has a shorter shift lever and a shorter shifting action, with these changes, it is possible to make quicker and more direct shifts in your vehicle.
