That means every model has some of the most advanced technology and best build quality in their class. Standard production techniques are not good enough for Honda. In fact, we even build the machines that build our cars. To further ensure there is no

compromise in build quality, we systematically check our cars at every stage of the manufacturing process. If necessary, we'll even change the process. It's what we call our 'right first time' policy. For example, to stop air bubbles forming beneath the surface of the car's paintwork, we developed a highly sophisticated dip and roll painting technique to ensure a perfect finish.

Every Accord Saloon, Civic 5 door and Civic Aero deck starts life on our state-of-the-art production line in Swindon, Wiltshire, where in 1994 we won the Queen's Award for Export Achievement.

Safety

Keeping you safe on the road means developing features that can be relied on to operate when needed.

That's why our SRS airbag uses not one, but three sensors to detect a frontal impact for maximum reliability. In just the blink of an eye it will inflate, cushioning any forward movement and reducing the prospect of injury.

But that's not the only uncompromising safety feature built-in. Every Honda benefits from the inherent strength of the structural design, as well as impact absorbing 'crumple zones' front and rear and side impact protection beams. Other safety measures include seatbelt height adjusters to ensure that the seatbelt can be adjusted to your requirements.

Looking after you is second nature to Honda

It begins with building a quality car. It helps with the purchase of your Honda. It continues with customer satisfaction and, of course, it looks after you in every aspect, every day, all year round.

Award Winning Customer Satisfaction

At Honda, our dedication to customer satisfaction has long since been recognised and rewarded. We have consistently been a top achiever every year of the BBC Top Gear / JD Power and Associates UK Study. The survey covers all key areas of customer satisfaction and is recognised as the UK's most comprehensive and accurate guide to quality, reliability and dealer performance.

It is of particular importance as it is the opinion of you, as a customer, that determines the final placings. Honda's excellent overall performance in the JD Power Survey is further evidence of our outstanding commitment to customer service.

Delivery

One of the many advantages of becoming a Honda owner is that we make sure you are completely familiar with your new car and the range of services provided by your Honda dealer, before you drive away your new car.

Your car will have undergone an extensive 80 point pre-delivery inspection check, and we ensure that all the finance documents (if applicable), insurance certificates and road fund licence are in order for the day you collect your car. We will also introduce you to the key members of staff who will be responsible for maintaining and servicing your car.

Warranties

Your dealer will also explain the three Honda warranties:

1. A **2-year unlimited mileage mechanical warranty** covers your Honda against any defects in materials or workmanship however far you drive in that time.
2. A **3-year surface corrosion warranty** guarantees the paintwork of your car against defects in materials or workmanship.
3. A **6-year rust through corrosion warranty** covers the body panels and structural parts of your car against perforation caused by corrosion from the inside out (excluding the exhaust system and catalytic converter).

HondaCare Assistance

Every new Honda comes with 2 years free membership of HondaCare Assistance - a motoring assistance programme run in conjunction with the AA.
