

**HONDA**

The Power of Dreams

**CIVIC**

**TYPE R**

Integratyper.org

Obvious style meets  
hidden versatility.

#### **Spacious Interior.**

The design of the hottest Civic of all time also provides a generous amount of space for the passengers. The unique concept of locating the fuel tank centrally under the front seat gives a low, flat rear floor. With the rear seats folded down, the luggage compartment offers so

much space that three mountain bikes (with their front wheels removed) can be accommodated. The stowage capacity behind the front seats amounts to 1352 litres. The rear seats feature special kinematics by which the back-rests can be lowered easily and with lightning speed. If the back-

rest catch is released and the back-rest part tilted forward, it is lowered so that a dead flat loading bay results. Thanks to an effective mechanism with easy-running joints, returning it to its original position takes no effort.

# Extra strength for added confidence.

#### **Chassis and Handling.**

The upgraded suspension improves handling and the unique steering settings ensure you'll always have an ultra responsive and sporty drive. The Civic Type R's unashamed sporting character is reflected in this even more highly-tuned set up, with unique spring, damper and bush characteristics as well as a 15 mm reduction in ride height. In addition, it takes the already stiff Civic body structure and introduces extra strengthening in the forward floor area, around the upper suspension mountings, and across the front of the engine bay to provide a rock-solid platform for even more responsive handling.

The 18" alloy wheels, 225/40 R18 tyres and razor sharp steering assist settings contribute to lightning quick responses to driver input.

The irresistible howl of the i-VTEC engine as revs climb towards the red line can be heard more clearly thanks to the upgraded wind and road noise insulation. By using advanced materials at precisely calculated strategic points, we've achieved it without compromising the car's exceptional light weight, balance and driving dynamics.

The extraordinary balance of refinement and sportiness makes the Civic Type R a car that's as at home on the race track as it is in between meetings.

*Feel every drop of passion in the high-revving 2.0-litre engine.*

The Type R's 2.0 litre DOHC i-VTEC naturally-aspirated engine featuring VTC variable inlet camshaft technology has undergone extensive reworking. It's our obsession with extracting the maximum performance from every component that makes the Type R truly unique. Low-friction, high compression pistons, hand finished gas ports, lightweight con-rods and a fully balanced crankshaft for smooth running at high rpm means that you will experience every drop of passion that has gone into the making of this car. The passion that led to the Project Team Leader saying 'The Civic Type R is the embodiment of all our efforts. If you cut this car in half, you will see our blood.'

It's an explosive piece of machinery that echoes our F1 engine at 8 000 rpm when it smoothly delivers maximum power of 148kW. No turbo charger means absolutely no lag, giving faster acceleration in all gears. Thanks to the unique i-VTEC meter on the dash you'll know exactly when i-VTEC kicks in – 5 400 rpm – earlier than any previous Type R, allowing it to be more responsive at lower rpm. The double overhead cam lets the engine breathe easier ensuring you get the maximum power from the engine. Now you can breathe.

ABS, EBD, VSA, ACE, etc.

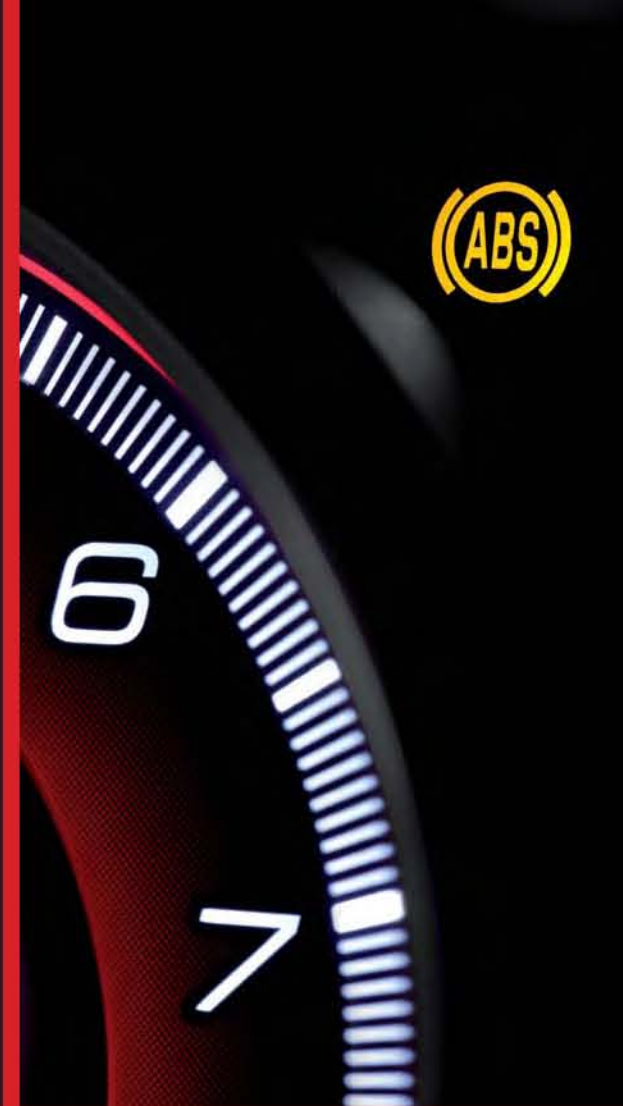

## Safety Features.

The Civic Type R is equipped with ABS, Electronic Brake force Distribution (EBD) and Vehicle Stability Assist (VSA), designed to aid the driver in maintaining control during cornering, acceleration and sudden manoeuvres. It applies braking to the right- or left-hand wheels as necessary and manages the throttle and brake systems.

Passive safety has always been paramount at Honda and as well as front, side and curtain SRS airbags and double pre-tensioners on the front seat belts, the Type R also has an innovative seat belt reminder system for rear passengers.

It also features large supportive headrests that are integral with the backs of the front bucket seats.

The Civic Type R also incorporates the ACE body structure. ACE means Advanced Compatibility Engineering, which allows impact forces to be distributed through more of the vehicle's mass and away from the passenger compartment.

Integratyper.org

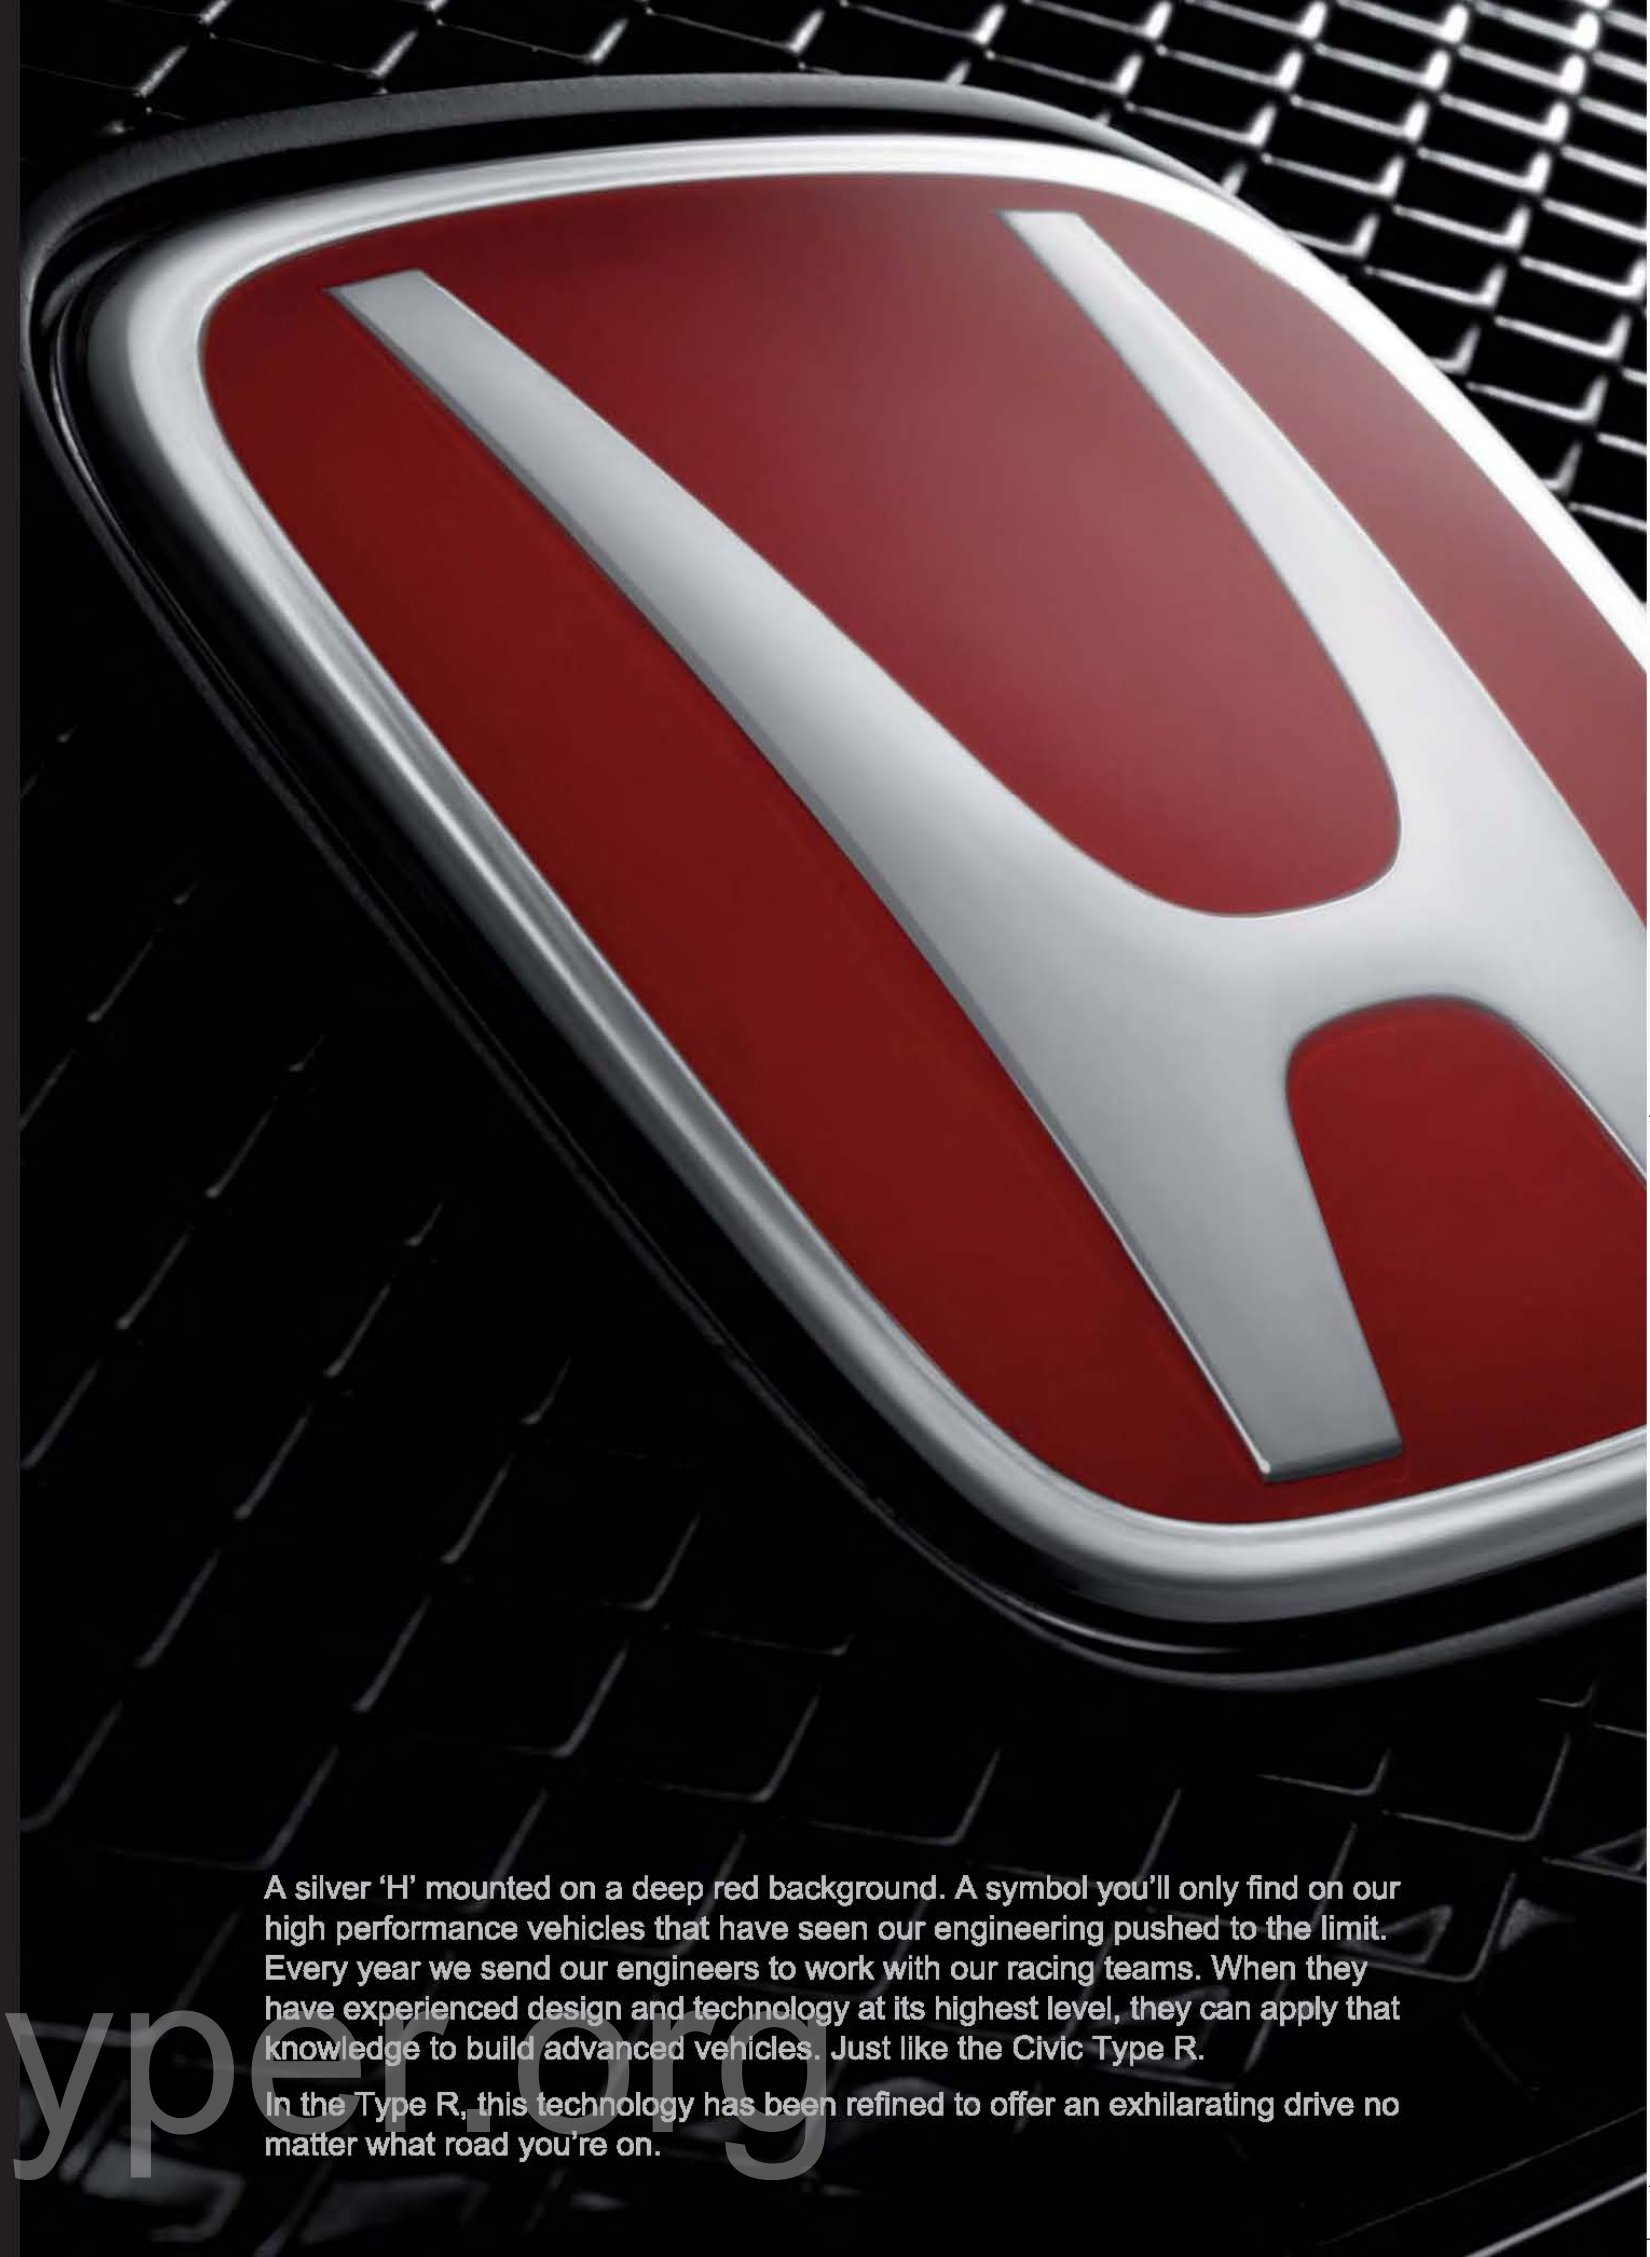

Different just  
got different.

Finally, a car as individual as you are. Brutal good looks, obsessive attention to detail and the futuristic wraparound cabin defy convention.

The new Civic Type R is inspired, individual and a vehicle for driving pleasure in its purest sense. Bold design, cool and comfortable interior styling and innovation combine with classic Honda virtues such as brilliantly low fuel consumption and legendary build quality. With this in mind, Honda has designed a car that is so desirable and distinctive, it will never go unnoticed or blend into the crowd.

Hot, written  
With a red H.

Integratyper.org

A silver 'H' mounted on a deep red background. A symbol you'll only find on our high performance vehicles that have seen our engineering pushed to the limit. Every year we send our engineers to work with our racing teams. When they have experienced design and technology at its highest level, they can apply that knowledge to build advanced vehicles. Just like the Civic Type R.

In the Type R, this technology has been refined to offer an exhilarating drive no matter what road you're on.

Pure  
design.  
Pure  
sports.

"The Type R is  
the embodiment  
of all our efforts.  
If you cut this car  
in half you will  
see our blood."

TYPE R PROJECT TEAM LEADER

#### **Bold Exterior.**

When designing the Civic Type R we knew the devil would be in the details. We started with a more sharply tapering rear side window to emphasise the coupé rear end and add to the sleek profile. Bold side skirts, a widened track and the large-dimensioned 18-inch wheels add a dynamic edge to the smooth new model.

In addition to the altered doors and rear side panels, well drawn-down body-coloured front and rear skirts, a rear spoiler plus a low front grille speak volumes about the Civic Type R's exhilarating character.

The result is a distinctive blend of style and strength, performance and power.

Man and machine  
become **one.**

#### **Driver Focused Cabin.**

It's vital that all the tools and information the driver needs are perfectly positioned around him. Developing this idea for the Civic range led to the creation of the two-tier Dual Zone dashboard. This connects you to both the road and the car allowing you to make faster, safer and more effective driving decisions.

It's not just the controls that have to feel right. You only need to sit in the finely stitched Alcantara bucket seats to get the feeling of being behind the wheel of a finely tuned vehicle.

We know that when you're inside, you'll drive it your own way. That's why we've made each Civic Type R unique with its very own serial number positioned above the aluminium gearshift. Now all you have to do is push the start button.

The attention to detail doesn't stop there. Other features include drilled aluminium pedals, leather steering wheel with red stitching and a progressive gear change indicator.

# Honda Civic Type R 3 Door Hatchback

## ENGINE

Type	Water-cooled 4-stroke DOHC I-VECTC 16-valve in-line 4-cylinder
Displacement (cm³)	1998
Power kW @ r/min	148/7800
Torque Nm @ r/min	193/5600
Fuel type	Unleaded petrol (95 RON)
Fuel supply system	PGM-Fi (Programmed fuel injection)
Throttle system	Drive By Wire (DBW)
Bore & stroke (mm)	86.0 x 86.0
Compression ratio	11:1
Exhaust system	3-Way Catalytic Converter
Transmission	6-speed Manual
Drive system	Front wheel drive

## DIMENSIONS, WEIGHTS & CAPACITIES

Length (mm)	4275
Width, including door mirrors (mm)	2046
Width, excluding door mirrors (mm)	1785
Height (mm)	1445
Tare mass (kg)	1322
Gross Vehicle Mass (GVM) (kg)	1700
Boot capacity to window, seat up (litres, VDA method)	415
Boot capacity to window, seat down (litres, VDA method)	1352
Fuel tank (litres)	50

## WHEELS, TYRES AND SUSPENSION

18" Alloy wheels	✓
Brake type, front	300 mm ventilated disks
Brake type, rear	280 mm solid disks
Type R brake calipers	✓
Tyres	225/40 R18
Suspension type, front	McPherson strut, coil spring, anti-roll bar
Suspension type, rear	Torsion Beam, coil spring, anti-roll bar
Turning radius (at body) (m)	5.91

## PERFORMANCE & ECONOMY

(see notes below)	
Acceleration (0-100 km/h, seconds)*	6.6
Maximum speed (km/h)*	235
Fuel consumption, urban (l/100km)#	12.7
Fuel consumption, extra-urban (l/100km)#	7.0
Fuel consumption, combined (l/100km)#	8.1
CO <sub>2</sub> Emission (g/km)	215

## EXTERIOR

Body coloured bumpers	✓
Body coloured door mirrors	✓
Metallic door handles	✓
Electric adjustable & heated door mirrors with Integrated Indicators	✓
Integrated aerial in rear windscreen	✓
Rear hatch spoiler with integrated high-level stop light	✓
Twin chrome exhaust outlets	✓
Auto-on headlights	✓
Front fog lights	✓
Rear fog light	✓

## SAFETY & SECURITY

High-level rear brake light	✓
Anti-lock Braking System (ABS)	✓
Electronic Brake-force Distribution (EBD)	✓
Emergency Brake Assist (BAS)	✓
Vehicle Stability Assist (VSA)	✓
Impact absorbing (ACE) body	✓
Side impact protection beams	✓
4 x 3-point inertia-reel seat belts	✓
Height adjustable front seat belts with pre-tensioners	✓
Dual front SRS airbags	✓
Dual side SRS airbags	✓
Dual curtain SRS airbags, front & rear	✓
Central locking with remote keyless entry	✓
Rolling code ECU Engine Immobiliser	✓
Audible security alarm system	✓
High security integrated audio unit	✓
Tonneau cover	✓
ISOfix child seat anchors on rear seats	✓
Selective locking	✓

## SEATING & STORAGE

Type R alcantara sport bucket seats with driver seat height adjustment	✓
Front centre console arm rest & storage bin	✓
60:40 split flat-folding rear seats	✓
6 x total cup & bottle holders	✓

\* - manufacturer tested

# - manufacturer indication of on-road fuel consumption

## INSTRUMENTS & CONTROLS

Cruise control	✓
Engine 'start' button	✓
Dual-level Instrument panel	✓
'Multi-plex' digital central information display including:	✓
- External temperature (°C)	
- 2 x Trip meter & Odometer (km)	
- Average speed (km/h)	
- Instant & 2 x average fuel consumption (l/100km)	
- Distance to tank-empty (km)	
- Stopwatch (hh:mm:ss)	
- Seatbelt indicator for all 5 passengers- Instrument illumination level	
Digital clock	✓
Variable intermittent windscreen wipers	AUTO
Adjustable headlight height	✓
Adjustable Instrument Illumination level	✓
Key & headlight-on reminder	✓
Boot & door open reminder	✓
Interior fuel filler release	✓

## COMFORT, CONVENIENCE & ENTERTAINMENT

Integrated CD/tuner with RDS (6 speakers)	✓
Speed sensitive volume compensation	✓
Leather steering wheel with integrated audio & multi-information controls	✓
Tilt & telescopic steering wheel adjustment	✓
Electric power assisted steering	✓
Dual zone climate control (Left:right Independent)	✓
Glove-box with adjustable refrigeration vent	✓
Front electric windows with auto up/down control, driver & passenger	✓
Driver & passenger vanity mirror, illuminated with lid	✓
Alloy gear knob with red stitched leather boot	✓
Drilled aluminium pedals with aluminium foot rest	✓
Cigarette lighter/12V power socket and removable ashtray (front)	✓
Front & rear interior lighting	✓
Driver & passenger map lights	✓
Light & 12V power socket (boot)	✓
