

[Integratyper.org](http://Integratyper.org)

A dark, atmospheric landscape with a bright, curved horizon line under a cloudy sky. The scene is mostly black and dark green, with a thin, bright white line curving across the lower right portion of the image. The sky is filled with dark, heavy clouds, with some lighter patches where light breaks through.

## pure racing pedigree

From a young age, Soichiro Honda exhibited a passion for racing. Through his devotion to engineering excellence he dedicated himself to creating the ultimate driving experience. Honda only put the Type R logo onto cars that epitomise this philosophy and this new Championship White edition Type R wears it proudly.

## uniquely powerful

Each Type R represents the next step in Honda racing heritage. The 201ps 2.0 litre, 16 valve DOHC engine in the Type R embodies the years of dedication that started on the F1 track and this heritage flows through every incarnation of the red H badge. Like famous Type R predecessors, this model features the iconic 18" white alloy wheels that, combined with the naturally aspirated free revving engine, make it stand out from the competition.

# exhilaration evolved

True to the Honda belief of ongoing improvement, we have added a Limited Slip Diff to complement the celebrated i-VTEC engine. The differential minimises single wheel spin and forces all the power onto the road producing grip and performance that knocked more than 1.4 seconds off the lap time set at the short Tsukiba Circuit in Japan. It's everything you've come to expect from the legendary Civic Type R, and more.
